Keynote speaker: WILLIAM HENRY, Investigative Mythologist and author, from Nashville, Tennessee. William has authored 10 books and is a frequent guest at UFO conventions where he presents his research on the Secrets of the Cathars, the human body as a resurrection tool, a ladder or Stairway to Heaven, as well as a 'flow-er of light', a plant, a Holy Grail; the mysteries of the illumined ones ILLUMINATI of antiquity, including the Sumerians, the Egyptians, the Gnostic Christians and the alchemists; Stargate Wormhole Secrets of ancient events such as the Tower of Babel and much more. His mythological specialty is the Ladder to God (Scala Dei in Latin) which has been featured in myths and scriptures since the beginning of time. In his books William interprets these stories of the Ladder to God on six different levels: the historical, the cosmological, the symbolic/metaphorical, the mythological/allegorical, the anatomical, and the technological. In his talk William will:

- Incorporate more than 500 slides of stunning images from the secret traditions of ancient Sumeria, Egypt and elsewhere.
- Bring together the world's far-ranging spiritual teachings, philosophies and scientific, truths into an all-embracing "Stargate metaphysics" (Spirituality based on the existence of gateways into higher realms of consciousness and Spirit).
- Illuminate the deeper codes underlying myths and beliefs about the body.
- Present techniques for "flipping" into higher consciousness and transmitting your thoughts at a higher frequency.
- Explore how the powers of the Universe are alive within us and how to recognize and align ourselves with those powers.

Join us on this remarkable adventure as William Henry takes us on a journey from the shores of the Milky Way through ancient Egypt, to decode the powerful and inspiring message of the Pillar of Light. He is the guest host of Whitley Strieber's "Dreamland" heard on <http://www.unknowncountry.com> or <http://www.williamhenry.net>
