## **This powerful book is the real deal!!**

From the hills of Appalachia comes the most simple and profound wisdom – if you don't like something in your life, by golly, just claim your power and change it! With no affectations, apologies or fancy talk, Raymon Grace, a self-described mountain man, shares step-by-step methods for healing what's wrong in your world.

You have a constant, direct link to a positive Higher Power, Raymon says in his book, and when you trust in that, set honorable intentions and sincerely desire to do good, miracles happen. Raymon, a dowser, apprenticed with two Native American healers, Rolling Thunder and Chief Two Trees, and also studied with Jose Silva. As he applied his new-found knowledge through the decades, Raymon learned he could do things like heal a painful migraine from 1,000 miles away; remove arsenic from well water; change the weather by driving a knife into the ground and send less-than-friendly ghosts packing.

Instead of accepting the mantle of “guru” that people wanted to place on him, Raymon shrugged off fawning admirers and set about teaching thousands of people in the U.S. and Canada how to do exactly what he was doing – with equally positive and incredible results. A steel plate “disappeared” from a man's back during a healing – and his amazed doctor confirmed it with X-rays. The chemical composition of the water in previously polluted ponds and streams changed – and there are scientific documents to prove it. Even severe depression that clouded a teen's mind was lifted, and relieved parents offer heartfelt thanks.

“The Future Is Yours” is the next best thing to attending one of Raymon's seminars. With specific instructions and even a detailed dowsing chart, Raymon teaches the reader how to tap into limitless power; and how to recognize when others might not necessarily have your best interests at heart. Raymon's book will shock, thrill and inspire you. You hear this a lot, but this time it's true – read this book – it will change your life!
